New and Improved: Flare-XM-1 Cordless Cap Lamp

The MSHA approved Flare-XM-1 is a rugged cordless cap lamp with the latest Lithium battery technology and high-powered CREE LED. The lamp features two power settings for main lighting and emergency lighting.

With light output of >3500 lux on main power, this lamp is suitable for most mining environments where safety and efficiency are the primary objective. The lamp is highly shock and water resistant.

- **2-step switch (main or emergency light)**
- **Pivoting Hard Hat Clip**
- **Improved Spot (Cree LED)**
- **Radio Frequency Immune**
- **Replaceable Power Button**
- **Enhanced Charging System**
